Dear Parent(s):

The Healthy Schools Act of 2000 was signed into law in September 2000 and requires that all schools provide parents or guardians of students with annual written notification of expected pesticide use on school sites. The notification will identify the active ingredient or ingredients in each pesticide product and will include the Internet address (<http://www.cdpr.ca.gov>) for further information on pesticides and their alternatives.

Parents or guardians may request prior notification of individual pesticide applications at the school site. People listed on this registry will be notified at least 72 hours before pesticides are applied. **If you would like to be notified every time we apply a pesticide, you may complete and return this form below to the school office.**

If you have any questions, please contact David Curry at (530) 273-0647.

Sincerely,

David Curry
Superintendent
